

## Harrison West

The following is a compilation of recommendations from city plans and project lists that may be eligible for UIRF funding. Area commissions, civic associations, and other organizations that are considering applying for UIRF funds should utilize this list as a starting point when considering potential projects. Additional general ideas for potential projects are listed in the document titled "[Generalized List of Potential UIRF Project Ideas](#)".

Recommendations from city plans from the following list (noted as such) have received considerable neighborhood public input, have been recommended by the local area commission, and have been adopted by City Council as policy for the given area/neighborhood.

Recommendations from the portion of the table titled "Other Potential Project Ideas from City Project Lists" have come from staff developed recommendations that are consistent with city plans and/or address other city capital improvement priorities.

Applicants for UIRF funding are not required to restrict themselves to a proposal from this list. This information was compiled by city staff in order to assist neighborhood organizations in developing project ideas, but the city does not guarantee that there may not be additional potential projects within a neighborhood's plan or from other sources. Neighborhood organizations should review their plan and other information themselves in order to better understand the recommendations from this list and perhaps identify other potential project ideas. Choosing a project from this list does not guarantee funding, but projects chosen from the list will be weighted in favor of projects not from the list, per the City's UIRF [Criteria Rating Form](#).
